everything is ready for work

- head magnifiers
- magnifying glasses
- neck magnifiers

Ideal for home activities, as well as for professional use in different areas. The Levenhuk Zeno Vizor series includes head and neck magnifiers, as well as magnifying glasses. All Levenhuk Zeno Vizor magnifiers feature built-in illumination and lenses made of high-quality optical plastic. The magnifiers come in stylish brand packaging boxes.

Head magnifiers

Levenhuk Zeno Vizador H

Comfortable to use and functional, Levenhuk Zeno Vizador H head magnifiers are ideal tools for high-precision work and hobby. These magnifiers are fixed on the head with adjustable fasteners, leaving your hands free for work. Bright built-in illumination provides uniform lighting. Additional lenses allow you to choose the most suitable magnification level for each specific task.

The kit includes:

Zeno Vizador H1 and H2: magnifier with the main lens, 2 additional lenses (pre-installed), and user manual
Zeno Vizador H3: magnifier, 4 interchangeable lenses, batteries, and user manual

Features

- Universal head magnifiers for work and hobby
- Convenient head fasteners with adjustable length
- Leave both hands free
- Additional lenses included
- The ability to combine lenses allows for variable magnification
- Bright built-in illumination
- Lightweight body made of plastic
- Lenses made of high-quality optical plastic

2 incandescent lamps

2 additional lenses

Zeno Vizador H1

#69668

Portable magnifier with head fastening. In addition to the main lens, the magnifier features folding and swivel lenses. Illumination – incandescent lamps.

2 LEDs

2 additional lenses

Zeno Vizador H2

#69669

Portable magnifier with head fastening. In addition to the main lens, the magnifier features folding and swivel lenses. Illumination – LED lights with adjustable angle of inclination.

2 LEDs

4 interchangeable lenses batteries

Zeno Vizador H3

#69670

Portable magnifier with head fastening. The kit includes 4 interchangeable lenses that can be combined in pairs. Illumination – LED lights with adjustable angle of inclination.
